

VORTEX RAZOR HD 50MM SPOTTING SCOPES

The beautiful design of the Razor HD 50mm travel 'scope disguises its compact rubber armoured toughness and superb optical quality. The sophisticated triplet apochromatic lens system ensures high definition across the entire field of view — no colour fringing, degradation of resolution or dilution of colour fidelity. The body itself which contains superior Argon gas is only 8.5" / 215mm long and with the eyepiece fitted is just 10.5" / 265mm, weighing just 700 grams it's an ideal quality travel 'scope.

Premium HD (high density) extra-low dispersion glass lens elements are carefully selected and precision-crafted to exacting standards for true-to-life images of startling clarity, resolution and colour accuracy. Exterior lenses are protected by ArmorTek—an ultrahard, scratch-resistant compound that repels oil, dirt and the corrosive salts of fingerprints. Fully multi-coated with scratch-resistant XRPlus premium coatings for extremely high resolution and optimal light transmission. A lightweight body with strategically-placed rubber armouring ensures strength, durability and lightweight performance. 100 percent waterproof, fogproof (purged with argon gas), dustproof and shockproof construction.

The 50mm Razor HD scopes come complete with protective eyepiece and objective lens covers, a 'view-thru' padded carry case and are of course covered by the Vortex Unlimited Lifetime Warranty when purchased from one of our UK Authorised Dealers.

Razor HD 50mm 'scopes are available in 11-33x50mm HD Angled or Straight body body design.

Optical Features

APO Optical System: Triplet Apochromatic lens combines with HD glass to provide unmatched colour sharpness.

HD Lens Elements: Premium HD (High Density) extra-low dispersion glass delivers the ultimate in resolution and colour fidelity, resulting in High Definition images.

XRPlus Fully Multi-Coated Lenses: Premium proprietary coatings deliver the highest level of light transmission with multiple anti-reflective coatings on all air-to-glass surfaces for maximum brightness.

Dielectric Prism Coatings: Multi-layer prism coatings provide bright, clear, colour-accurate images.

Plasma Tech: Cutting edge application process provides unparalleled coating durability and performance.

Construction Features

Porro Prism: Offers maximum image quality and performance in a traditional design.

i) Angled Body Design: Valued for allowing an overall lower mounting height which maximizes stability in wind, offers greater comfort when viewing for extended periods, and permits the use of a smaller, lighter tripod.

ii) Straight Body Design: Valued for speedy subject acquisition and ease of use. Most compatible design for use with car window mounts.

Waterproof: Optics are sealed with O-rings to prevent moisture, dust, and debris from getting inside the spotting scope.

Fogproof: Argon gas purging guarantees superior fogproof and waterproof performance.

ArmorTek: Exterior lenses are protected by ArmorTek — an ultrahard, scratch-resistant compound that repels oil, dirt and the corrosive salts of fingerprints.

Rubber Armour: Strategically-placed rubber armouring ensures ultimate strength, durability and lightweight performance.

Convenience Features

Adjustable Eyecup: Folds up and down for comfortable viewing with or without spectacles.

Dual Focus: Allows for maximum focusing precision with both coarse and fine focus adjustments.

58mm filter thread: Will take a 58mm screw in filter for added protection to the objective lens glass.

Vortex 50mm Razor HD Spotting Scope Technical Specifications:

11-33x50mm HD Angled:

Magnification: 11-33x
Objective Lens Diameter: 50mm
Linear Field of View: 191-96ft/1000yds
Angular Field Of View: 3.6-1.8 degrees
Close Focus: 2m / 6.6 feet
Eye Relief: 20 mm
Exit Pupil: 4.6-1.5 mm
Length: 257mm / 10.3 inches
Weight: 700g / 25 ounces

11-33x50mm HD Straight:

Magnification: 11-33x
Objective Lens Diameter: 50mm
Linear Field of View: 191-96ft/1000yds
Angular Field Of View: 3.6-1.8 degrees
Close Focus: 2m / 6.6 feet
Eye Relief: 20 mm
Exit Pupil: 4.6-1.5 mm
Length: 275mm / 11 inches
Weight: 700g / 25 ounces

11-33x50mm Razor HD Angled Spotting Scope

11-33x50mm Razor HD Straight Spotting Scope
